## PHILOSOPHY

### **Inspiring the heroine in you.**

*“My designs express who I am and what inspires me; allowing me to keep dreaming and to transform my imagination into reality.” Nadine Dalal, Creative Director*

Inspired by nature, fashion, art and music, Delalle sunglasses will enhance your own sense of style and personality. Think of them as opulent jewellery pieces that finish an outfit. With sleek designs that echo an eclectic, modern and fearless spirit, they will rouse the thrill-seeker, risk-taker and dreamer in you.

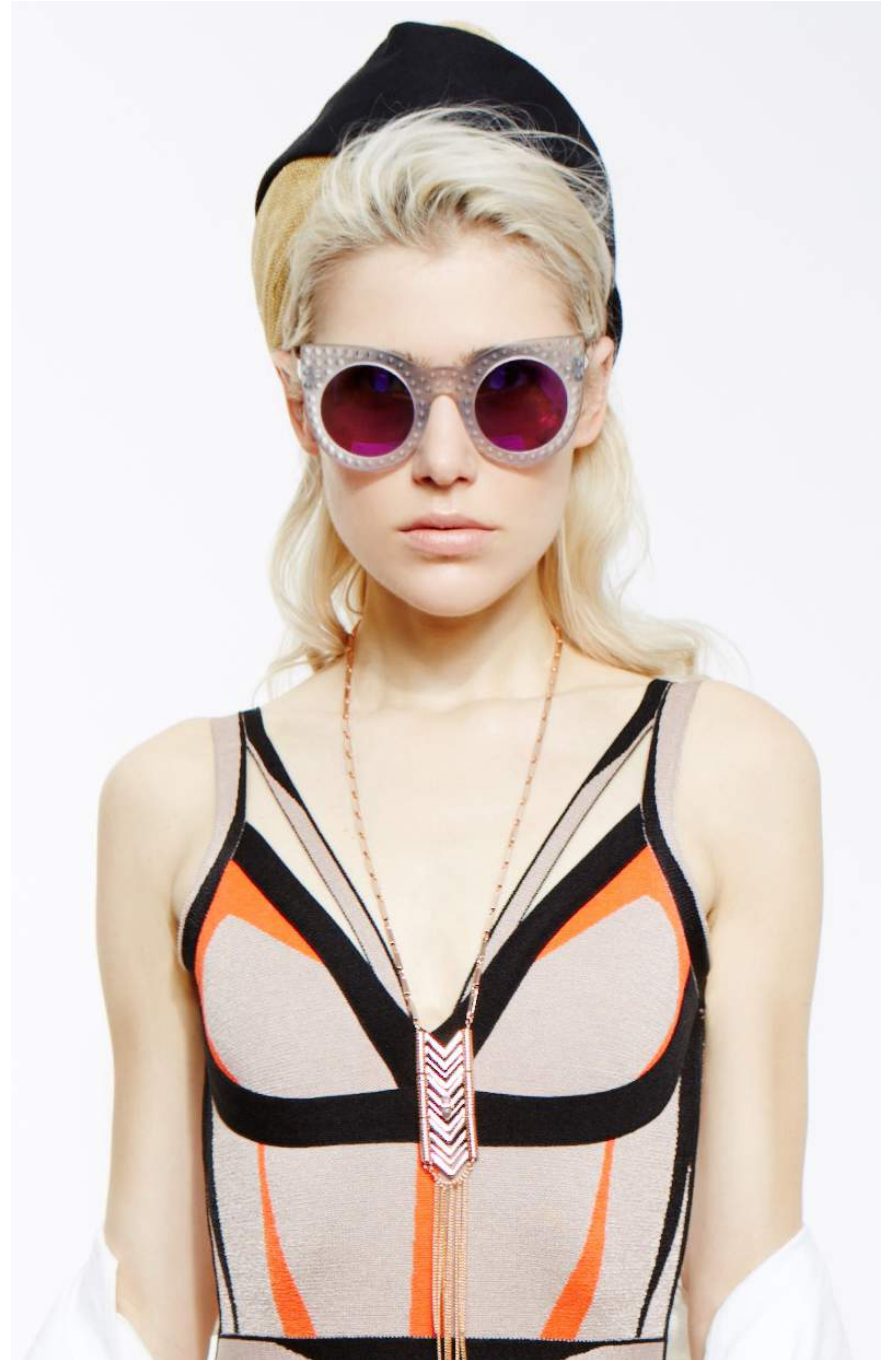

They are not for the shy and retiring. Conceived in London, each frame is handcrafted in Japan, using the highest quality acetate. Each style is created as a limited edition collection.

## DeMilune

**For the thrill-seekers, the thought-provokers and the dreamers.**

*Dream big and reach for the stars with DeMilune. A frame to flatter all face shapes and enhance everyday style.*

Although smaller in size than her sister style, DeMilune is no wallflower. Inspired by the crescent moon, the phase of hope, intention and wishes, DeMilune will encourage you to dream big and reach for the stars. Created for the sundowners who take their energy from the moon, wear this style to reveal your full potential and find yourself teetering on the edge of something exciting soon.

## DeFying

**For the adventurers, the daredevils and the euphoric aspirants.**

*The sky's the limit with Defying. Fly high in seventh heaven where all your dreams come true. Wear to stand out among the crowd.*

Inspired by vibrant 80's cartoon She-Ra, DeFying transmits our childhood imagination that captivates and enchants us. Whisking you off to a whimsical world where one feels ecstatic and free. Just as our favorite cartoon heroes exude a dreamy and defiant character, so too does the DeFying collection. Wear this style to arouse confidence, fantasy and creativity.

## DeHex

**For the trailblazers, the strong-minded and the risk-takers.**

*Smooth and sleek, take the lead and expand your horizon with our first Unisex shades. The world is your oyster with DeHex.*

Inspired by the textures of the desert, DeHex embodies an indestructible force. Just like the desert, which is formed by all the weathering processes, Dehex are for those who endure anything that comes their way and come out on top. They encompass the strength and the charisma to take the world by storm.
